“Not being able to speak is not the same as not having anything to say.”
- Rosemary Crossley

What is aphasia?

Aphasia is an impairment in the ability to speak, write, read or understand.

Aphasia is most commonly caused by a stroke or other brain injury.

Aphasia does not affect intelligence.

We are a community of individuals with aphasia, family members, volunteers and speech-language professionals.

Our mission.

Improve communication skills.

Support independence.

Encourage community participation.

Enhance quality of life.

How can CAC help?

Learn about aphasia.

Practice communicating.

Provide / receive peer support.

Socialize and make friends.

Share experiences.

Learn from each other.

Improve self-confidence.

Have fun.
